

Tender for Construction of Fruits and Vegetable KIOSKs

Organisational Background

After decades of civil war, violent extremism and recent widespread famine caused by droughts, Somalia’s youth face numerous hardships in accessing better opportunities. To improve access to jobs, SPARK has helped create a mandatory, national internship policy in Somaliland that ensures all students gain real work experience prior to graduation. We also work to improve entrepreneurship education by developing entrepreneurship modules for higher education institutes. Similarly, we counter high unemployment rates by supporting new entrepreneurs to establish businesses and grow existing small and medium enterprises (SMEs).

Project Background

The LEAD 2 programme is a 4-year Dutch Ministry of Foreign Affairs-funded programme (2020/2023) that aims to improve and enhance economic prospects and opportunities for youth in Tunisia and Somaliland by supporting SMEs to grow, alongside supporting an enabling business environment and developing entrepreneurship and employability measures.

Under LEAD 2 project, SPARK invites bids from reputed, experienced, and financially sound companies, firms, and agencies for KIOSK's supply and installation. The interested companies, firms, and agencies in similar businesses may send their financial bids based on the technical specifications attached in ANNEX 1.

Schedule for submission of tender is mentioned below:

Description	Schedule
Opening of Tender	November 8 th , 2020
Closing Date and time for submission of tender	Nov 22 nd , 2020 at 4pm
